

REMARKS

Claims 1-37 and 49-53 have been canceled without prejudice. Claims 54-75 are added. Claims 38-48 and 54-75 remain in the application for consideration. In view of the following remarks, Applicant respectfully requests that the application be forwarded on to issuance.

Allowable Subject Matter

In the present Office Action, the Office indicates that claims 38-48 are allowed. Applicant respectfully thanks the Office for the indication of allowable subject matter. Accordingly, Applicant has cancelled all art-rejected or restricted claims to leave only the allowable claims in the application.

Applicant would like for the record to reflect that the cancellation of these claims has been made solely for the purpose of allowing a patent to issue and is not to be construed as an admission as to the propriety of the Office's rejections. As such, Applicant reserves its right to file additional continuation applications to pursue subject matter that it believes it is due.

New Claims Having Same Scope as Allowed Claims

In addition, Applicant has added new claims 54-75. These claims have the *identical scope* as the allowed claims, but are drafted in different statutory claim classes. For example, the allowed claims are directed to computer-readable media. Claims 54-64 have the same scope as the allowed claims, but are directed to a method. Similarly, claims 65-75 have the same scope as the allowed claims, but are directed to a system.

1 By virtue of the fact that these claims have the identical scope as the
2 allowed claims, they should be summarily allowed.

4 **Conclusion**

5 All of the claims are in condition for allowance. Accordingly, Applicant
6 requests a Notice of Allowability be issued forthwith. If there remains any
7 outstanding issues, the Office is urged to contact the undersigned
